Public bathrooms have always been inhospitable places, a dark space, an environment without design until...

NOFER® *from Barcelona* changed everything.

The city of Barcelona is a benchmark for European culture, industry and design.

NOFER® *from Barcelona* aspires to excellence in the quality of its materials, to innovation from its design, to the accuracy in controlling its production, to the efficiency of its service: quality, design, control, service...

NOFER® from Barcelona

creates public bathroom spaces for everyone. It gets into the user's skin to adapt to your needs... Regardless whatever its origin, its race, its customs, its limitations...

“Unity is variety, and variety in unity is the supreme law of the universe.”

Sir Isaac Newton

...regardless of their origin, race,
their customs, their limitations...
NOFER®

Eco Efficiency

- **Energy savings**, very low consumption.
- High speed motors for an **ultra fast drying** by dragging away the moisture in hands.
- Drying times: **6 – 12 seconds.**
- The high speed hand dryer is an **80% more energy-efficient** than the conventional hand dryers and a **95% more cost-effective** than the paper towels.
- **Leed Certification** (International green building certification program).

HAND DRYER - SOAP DISPENSER - TAP WITH ELECTRONIC SENSOR

Material
Anodised aluminium

concept³

NEW

Hand dryer, soap dispenser and tap set on countertop. 3 in 1 integrated sensor.

DISPENSER TAP	
Dimensions (01902 model)	317,5 x 230 x 268 mm
Dimensions (01901 model)	225 x 230 x 251,5 mm
Weight (01902 model)	2,5 kg
Weight (01901 model)	2,3 kg
Materials	Anodised aluminium / ABS / Brass
Activation	By sensors
Water consumption	3 - 7 L/m (3 Bar)
Aereator	Neopearl
Operation	Electronic sensor
Noise level at 2m	65 dbA
HAND DRYER	
Hand dryer box dimensions	180 x 322 x 180 mm
Hand dryer box weight	3,1 kg
Material	ABS
Power consumption	5,3 A
Voltage	220V - 240V
Electrical isolation	Class II
Protection index against ingress of dust and water	IP52
Motor power	1200 W
Motor speed	32000 RPM
Drying time	14-15 seconds
HEPA filter	YES
SOAP DISPENSER	
Soap dispenser dimensions	120 x 322 x 120 mm
Weight	0,9 kg
Materials	ABS
Voltage	5V
Soap dosage	1-4cc (electronic regulation)
Soap tank capacity	2 litres

3 YEARS
OF WARRANTY
Extendable to 5 years.
To be consulted

V300

The V300 hand dryer has an anti-splash drying system by high speed air currents. No need to insert the hands one and again. How to use: enter the hands in the drying area, wait for few seconds and take the dry hands out.

TRIBLADE

Ultra fast drying system by high velocity air currents.

How to use: insert your hands in the drying area, moving them up and down.

PROTECTION THAT LIVES ON MICROBAN ZeroSmell

CE ADA COMPLIANT

HAND DRYER WITH ELECTRONIC SENSOR

ION SHIELD
ion technology

ION SHIELD

The application of the Ion-Shield technology to hand dryers is one of the most revolutionary developments in the industry in recent times. And Veltia is the first company to incorporate this technology. This technology not only improves the hygiene of hands' drying but it also acts as a cleaner and purifier of the air in the bathroom or the space where it is located.

With Ion-Shield, the dryer emits 20 million negative ions per cm3. These ions attract the particles of dirt and pollution. Then they stick together and fell down by the effect of gravity.

With this system, we clean the air of bacteria, mites, and bad odors, resulting in a cleaner and more pleasant environment.

HEPA FILTER 90725

The HEPA filters H12 are composed of a mesh with a diameter of between 0.5 and 2 micrometers. This type of filter is designed to retain the smallest pollutants and particles, thereby improving the efficiency in the elimination of most of the contaminant residues. Veltia's H12 HEPA filters are positioned as one of the main and most effective air filters on the market thanks to its high efficiency and effectiveness in removing quickly up to 99.50% of polluting particles in suspension.

ZERO SMELL 06035

ZeroSmell not only neutralizes bad odours within the surrounding area, but leaves a slight and pleasant fragrance which increases the user's experience and perception

ZeroSmell is an innovative product that can be used to remove bad odours. With the maximum level of efficiency in areas where bad smells are usually present in both domestic and professional environments.

Currently, there is no other product on the market as effective as ZeroSmell. Most other products are usually air fresheners that only cover the bad smell with perfumes. They claim to eliminate bad odours when they actually only cover them.

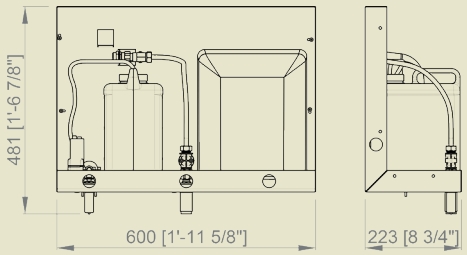
25,5 litres

GENERAL CHARACTERISTICS	
Dimensions	1700 x 352 x 200 mm
Rough wall opening dimensions	1650 x 300 x 195 mm
Power	2450 W
Operation	Electronic sensor
Voltage	220 - 240 V~
Frequency	50 - 60 Hz
Power consumption	10,6 A
Electrical isolation	Class I
Protection index against ingress of dust and water	IPX1
Automatic stop for vandalism	YES
MOTOR	
Power	250 W
Speed	6500 rpm
Type	Universal
Electrical protection	Safety heat limiter
BENEFITS	
Air temperature (20ºC ambient)	53ºC a 10 cm
Airspeed	117 Km/h
Estimated drying time	28 seconds
Noise level at 2m	70 dbA

COMPACT FURNITURE WITH HAND DRYER

NEW



Compact furniture for installation behind the mirror. Designed for multifunction: automatic hand dryer, sensor tap and automatic soap dispenser. Stainless steel frame. Consult availability. Consult other options.

Dimensions
430 x 600 x 223 mm
Consult other dimensions

Faucet set for wash basin and toilet pan Combi units.

Self closing faucet with spout and flushometer included (both push button operated).

Stainless steel colective wash basins

made in ES

- Manufactured with stainless steel in various thicknesses (standard 1,2 and 1,5 mm) and various qualities: AISI 304 or AISI 316.
- Rounded, squared or special integrated sinks.
- Variable widths and lengths.
- Variable backsplashes and dropfronts, with and without sanitary radius.
- Variable tap and soap dispenser holes.
- Special shapes for overcome pillars, waste pipes, etc.

Sash window

GENERAL RECOMMENDATIONS ON MAINTENANCE

- All type of stainless steel can become stained or fade when in contact with some substances or when inadequate cleaning products are used.
- Surfaces of devices must always be clean so that stainless steel keeps its highest anticorrosion levels.
- Products based on strong acid solutions used in cleaning of bricks and tiles should never come into contact with stainless steel.
- Bleach and other cleaning products based on hypochlorite should not be used for cleaning stainless steel.
- Other products that should not come into contact with stainless steel are some cleaning products for bathrooms, developer liquids, acids, concentrated disinfectants, bleaches and strong alkalis such as caustic soda. If any of these liquids gets in contact with stainless steel it should be rinsed thoroughly with clean water.

Surgical wash basin

STAINLESS STEEL DAILY MAINTENANCE

For the daily cleaning of stainless steel products and toilets NOFER recommends:

1. Wash the surface with soapy water or mild detergent.
2. Rinse with clean water always.
3. Dry with a soft cloth.

There are products on the market for cleaning stainless steel surfaces, which can be used directly, providing a superb finish and protecting stainless steel surface.

Material air locks

CLEANING OF TOILETS AND URINALS

To clean and maintain the appearance of these items, use cleaning products that contain sulfamic acid sulphonamides and are recommended for cleaning stainless steel. These products remove the plaque, are bactericidal and deodorant and do not harm stainless steel. In any case, follow the instructions and precautions for use given by the manufacturer of the cleaning products.

NYLON SERIES

- **Anticorrosive aluminium** inner core with antibacterial Nylon coating.
- **Made of aluminium core** with stainless steel wall brackets and 4 mm thick nylon coating which gives the bar high resistance and durability. This is essential for the good maintenance of the external and internal parts of the grab bar
- The nylon coting is produced from powder format polymers enriched with highly effective **bactericidal additives,** during the forming process.
- **Proven bactericidal effectiveness** against the more threatening bacteria in hospitals and medical centers such as: Escherichia coli, Salmonella enteritides, Staphylococusaureus and Listeria monocytogenos.
- The bacterial reduction has led to the **99,9%** reduction within the following 24 hours, being reduced to less than the 5% at the first 2 hours.
- There is a **full range** counting with all the typologies that you may need: straight bars, angled bars, swing-up bars, reinforced, with floor supports, for shower, shower seats, handles, etc.
- **Non-conductive material:** no earth grounding means required.
- Confortable touch, **non-slip.**
- Fixing materials included.
- The bactericidal properties and the soft and warm finish make the new NOFER Nylon Series **the besto choice** the healthcare and hospital environment.

99,9% bacterial reduction within the following 24 hous, being reduced to less than 5% at the first 2 hours.

EMERGENCY

· **Essential aid** in case of incident caused by fire or contamination by acids, alkalis or solvents.

· **Very wide field of application:** for all type of industries and laboratories.

· **First-aid procedure**. first aid for whatever damage or burn by acids, alkalis or radioactive and irritant chemicals, involves removing the harmful chemical by washing the concerned body part as soon as possible with plenty of water: this way of acting makes, in almost the all the cases, to eliminate the consequences, however, delaying the aids can may be fatal.

· The emergency showers and eye washers fully satisfy the **normative** required specifications:

* UNE-EN 15154-1 Plumbed-in body showers for laboratoires normative.

* UNE-EN 15154-2 Plumbed-in eye wash units normative.

* ANSI Z358.1-2004 (American National Standard Intittute) eyewashers and emergency showers regulations.

· In compliance with the regulation, the minumum eyewasher water flow has to be 6 litres/minute and for the emergency showers 100 litres/ minute. **The BOCCHISafeWork NOFER emergency showers and eyewashers** overcome the requirements, having a maximum water flow of 14 litres/minute for the eyewasher and 120 litres/minute for the emergency shower.

· **EYEWASHER:** material: polypropylene / stainless steel. Connections brass. Aerated flow. Maximum water flow: 14 litres/minute 310% (at 0,3 MPa). Minimum required water flow: 6 litres/minute at 0,2 MPa. Color: Green RAL 6029.

· **EMERGENCY SHOWERS:** Shower head: polypropylene / stainless steel. Connections: brass. Tube: Galvanized steel. Water flow: 120 litres/minute at 0,3 MPa. Finish: epoxy painted. Minimum required water flow: 100 litres/minute at 0,2 MPa. Color: Green RAL 6029.

GENERAL CONDITIONS OF SALE

NOFER CONDITIONS OF SALE
The descriptions and photographs contained in our catalogue are with an information purpose only. Our company policy is to improve our products continuously; therefore we reserve the right to change specifications without prior notification

PRICES
Prices do not include VAT or other taxes. The catalog prices can change without prior notification and are valid according to the current rates on the date of expedition.

ORDERS
All orders must be formalized in writing. Essential for the special manufacturing:
- To attach a sketch with the dimensions of the ordered product.
- To pay 50% of the amount at the time of the order acceptance. The remainder shall be paid according to the agreed conditions.
- Prices do not include installation or start-up.

DELIVERY
- The merchandise contained in this catalogue is subject of a process of manufacturing. For this reason the delivery time provided by NOFER, S.L. for the products ordered by the purchaser, shall be considered as approximate or estimated time.
- Any eventual delay in delivery shall not give rise to any penalty or compensation for damages, or allow the buyer to cancel the order.

TRANSPORTATION OF MERCHANDISE
- When the goods are freight due, NOFER, S.L. is exonerated of possible flaws or defects that might be due to transportation of the goods.
- When the goods freight is prepaid, the customer must notify to NOFER, S.L., in writing and within 24 hours of the receipt of the goods, any defect attributable to the forwarder, in order to facilitate the claim of responsibility according to Law 16/1987 of Management of Land Transport and RD 1.111 / 1990 laying down the rules of the LOTT.
- The claim against the carrier for damage or breakdown should be in the act of receiving the packages in case of visible damages and **within 24 hours** of receipt. If the damages were not visible, protest or reservation should be in writing.
- The goods travel always at the buyer's risk, even in cases of special agreements.
- Carriage prepaid: From 500 €.

CLAIMS AND REFUNDS
Will not be accepted after FIFTEEN DAYS from the date of the receipt of the goods. The date of the carrier's delivery note will record the date of receipt of the goods.
No refund without the original NOFER's packaging and the express consent by NOFER, S.L. will be accepted. No refunds are permitted for custom manufactured items.
Any unjustified returned material, if paid, will suffer a minimum of 15% automatic depreciation on the invoiced amount, for management expenses and storage. The depreciation can be increased after an expert valuation.

WARRANTIES
Under the conditions described in the certificates included in the relevant section, the warranty is limited to the replacement of parts and spares that the NOFER, S.L. technical staff recognize, in our company and without compensation of any kind. The warranty does not include transport or solving breakdowns caused by reasons beyond the design or manufacture of the product or originated by improper handling, installation or maintenance, or by the normal wear.

PAYMENT
Up to the granting of the appropriate classification and risk, all operations will be prepaid

SUCCESSIVE OPERATIONS
Deferral of payment of our invoices shall be agreed between both parties. After the set deadlines, we are allowed to post automatically the interest for late payment at the rate of ONE PERCENT per month or fraction of a month.

TAXES
Invoice charged under applicable law.

RETENTION OF TITLE
The goods are considered property NOFER, S.L. until the full payment by the customer, taking NOFER, S.L. until then the retention of title.

JURISDICTION
Will be competent only in case of dispute, the Courts of Barcelona.

REPARATIONS
The reparations will be held for the authorized Assistance Services or in NOFER, S.L., previous the corresponding budget acceptation. IMPORTANT: budget cost 15 €.
